Ankit Patel

Full-Stack Developer | Computer Science Undergraduate

Kolkata, India | ankit79600@gmail.com | LinkedIn | GitHub | X / Twitter

Motivated first-year engineering student and self-driven full-stack developer with hands-on experience building and deploying web applications using JavaScript, Node.js, and modern frameworks. Comfortable working across the stack — from front-end interfaces to back-end APIs and smart contracts — and eager to apply strong fundamentals and a fast learning curve to a software development internship or entry-level role.

SKILLS

Languages:	JavaScript, C, HTML, CSS
Frameworks & Tools:	Node.js, Express.js, Git, GitHub
Concepts:	Full-stack web development, REST APIs, responsive design, version control

PROJECTS

Decentralized Credit Scoring dApp 2026

Live Demo · GitHub

- Built a full-stack, permissionless credit-scoring platform on the Stellar blockchain where any wallet can rate another (0–1000) and scores are averaged on-chain.
- Developed a responsive front end with Next.js, React, and TypeScript, integrated with the Freighter wallet and Soroban smart contracts written in Rust.
- Implemented a multi-evaluator trust model (scores marked “trusted” only after 3+ independent evaluators) and added analytics and error monitoring with PostHog and Sentry.
- Deployed to production on Vercel with a live testnet contract achieving ~5s finality at under $0.01 per transaction.

Saathi — Offline Rural Health Assistant 2026

GitHub

- Created a fully offline, on-device AI triage and documentation aide to help rural health workers understand and record patient health problems.
- Combined vision (photo/document analysis), voice input, and structured form-filling using the Gemma on-device model via LiteRT-LM, with a Streamlit interface in Python.
- Leveraged function calling to auto-fill structured patient records from free text, keeping all processing local with no internet dependency after setup.

EDUCATION

Narula Institute of Technology Kolkata

Bachelor of Technology (Engineering) — First Semester SGPA: 8.25

CMS, Burdwan Higher Secondary (Class XII)

73%

Kendriya Vidyalaya, Burdwan Secondary (Class X)

83%

ACHIEVEMENTS

- Awarded for completing the “Stellar Journey to Mastery” challenge, demonstrating proficiency in blockchain and Stellar / Soroban development.
